Driven and innovative individual focused on utilizing emerging technologies to develop high-quality applications. Committed to continuous learning and solving challenges through collaboration and creativity.

Education

- **Kalinga Institute of Industrial Technology, Bhubaneswar** *June 2023 - August 2025*
 - Masters in Computer Application (MCA) | CGPA: 9.10
- **The Heritage Academy, Kolkata** *June 2019 - August 2022*
 - Bachelor in Computer Application (BCA) | CGPA: 9.32
- **Amrita Vidyalayam, Kolkata** *April 2019*
 - Higher Secondary | CGPA: 7.89
- **Amrita Vidyalayam, Kolkata** *April 2017*
 - Secondary | CGPA: 7.0

Skills

- **Languages:** HTML, CSS, SQL, Java
- **Libraries:** Bootstrap, React.js
- **Tools:** Vite, PostgreSQL
- **Design tools:** Figma
- **Preprocessors:** SCSS
- **Soft Skills:** Leadership, Organized

Projects

- **Travel Website | HTML, CSS, React Js, Bootstrap** *August 2024*
 - Created an engaging homepage with visuals that capture the essence of travel and adventure, ensuring responsive design for mobile-friendliness across all devices.
 - Developed sections highlighting popular travel destinations, travel packages, deals, and offers, as well as a section detailing services.
 - Included a feedback form in the footer, along with social media links and contact details.
- **Pizza Bill Generator | Java and OOPs concept** *Ongoing*
 - Designed a Java-based application to generate detailed bills for customized pizzas, leveraging Object-Oriented Programming concepts such as inheritance, method overriding, and encapsulation.
 - Implemented features for adding extra toppings, cheese, and take-away options, showcasing real-world application of polymorphism and class hierarchies.
 - Enhanced the user experience by automating bill calculation with precise breakdowns of all added customizations.

Hobbies

- Travelling, Sports, Reading Books, Art and Crafts
